Media Resources

The College of Engineering at UC Santa Barbara is dedicated to educating the next generation of engineering and science leaders to discover and apply breakthroughs in knowledge and technology. UCSB Engineering is recognized globally as a leader among the top tier of engineering education and research programs. Our programs are ranked consistently among the most prestigious Engineering institutions in the world.

UCSB Engineering is renowned in the areas of materials, electrical engineering, photonics, solid state lighting, bioengineering
, nanotechnology, chemical engineering, computer science, and mechanical engineering. Our graduates work in the fields of energy efficiency, technology management, next generation electronics, biotechnology, robotics, computer security, cloud computing, materials engineering, and much more.

Quick Fact Sheet

College Deans and Department Chairs

Meet our Dean, Nobel Prize winners, and members of the National Academies

Convergence Magazine

Convergence, the award-winning magazine of Engineering and the Sciences, is designed to offer insight into the breakthrough interdisciplinary research and teaching at UC Santa Barbara.
