

Press Releases for 2011

☒ December 13, 2011

[Eight Distinguished UCSB Faculty Members Named AAAS Fellows](#)

UCSB Engineering and the Sciences Professors Honored as Fellows by the American Association for the Advancement of Science (AAAS)

☒ December 12, 2011

[UCSB Computer Science Professors Recognized for Pioneering Technological Advances](#)

☒ December 7, 2011

[Leiden Ranks UCSB #7 in the World for Research](#)

New Leiden Ranking system aims for objectivity in ranking top 500 research universities

☒ November 28, 2011

[Researchers Awarded \\$3.2M from NIH to Pioneer Advanced Biomolecule Discovery Technology](#)

A team of researchers is designing a way to generate nucleic acid molecules that will revolutionize medical diagnostics and drug delivery

☒ November 22, 2011

[UCSB Professor Receives Award for Graphene Electronics Research from Leading Electrostatic Organization](#)

Electrostatic Discharge Association's annual award recognizes innovations in graphene nanoelectronics research by Professor Kaustav Banerjee

☒ November 10, 2011

[John Bowers Wins 2012 John Tyndall Award for Photonics Research](#)

UCSB Professor John Bowers is being recognized by the Optical Society and IEEE Photonics Society for pioneering research in hybrid-silicon lasers and photonic integrated circuits

☒ November 7, 2011

[UC Santa Barbara Receives Grand Challenges Explorations Funding](#)

UC Santa Barbara Computer Science researchers receive \$100,000 grant from the Bill & Melinda Gates Foundation to develop a wireless technology system and immunization database for rural populations

☒ November 2, 2011

[UCSB Chancellor's Community Breakfast to Focus on Energy Efficiency](#)

Director of the Institute for Energy Efficiency to speak on "Energy Efficiency: From the Data Center to the Third World"

☒ October 26, 2011

[NIH Awards \\$4.5M to International Research Group for Smart Artificial Pancreas Technology](#)

☒ October 20, 2011

[UCSB Student Only U.S. Academic to Receive Prestigious Ph.D. Fellowship Award in Nanoelectronics Research](#)

Electrical and Computer Engineering Doctoral Student Deblina Sarkar Honored as the Only Researcher from the Americas and First UCSB Nominee to Receive 2011 IEEE Electron Devices Society's PhD Fellowship Award

☒ October 19, 2011

[Researchers at UCSB Develop New Benchtop Polymer Characterization Method](#)

Materials researchers validate decades-old Nobel Prize winning theory by developing a simplified lab technique for measuring polymer characteristics using magnets

☒ October 17, 2011

[Growth of High Quality Graphene by UCSB Researchers a Critical Discovery for Producing Next Generation Electronics](#)

Method Refined by UC Santa Barbara Scientists to Synthesize Sheets of 'Wonder Material? Graphene is Promising Link to Futuristic Technology

☒ October 11, 2011

[UCSB Researchers First to Develop Equation that Predicts Molecular Forces in Hydrophobic Interactions](#)

New Equation Developed by UCSB Chemical Engineers Solves the Mystery of Forces Between Water-Repelling and Water-Attracting Molecules that are Critical to Industrial and Medical Applications

☒ September 27, 2011

[Computer Science Professor Receives NSF Grant to Bring Wireless Tech to Rural Africa](#)

Researchers Elizabeth Belding of Computer Science and Lisa Parks of Film & Media Studies Receive \$1.2 Million for New Wireless Network Technology That Will Bring Zambia Online

☒ September 26, 2011

[Sumita Pennathur Receives Presidential Early Career Award for Nanotechnology & Mechanical Engineering Research](#)

President Obama to Present Honor to UCSB Mechanical Engineering Professor for Outstanding Achievements

☒ September 8, 2011

[Major Grant From the National Science Foundation Will Sustain UCSB Materials Research Through 2017](#)

World-leading interdisciplinary research and education help the UC Santa Barbara Materials Research Laboratory secure \$20 million in renewed NSF support

☒ May 31, 2011

[New Imaging Technique Used to Study Multiple Sclerosis](#)

☒ May 2, 2011

[Department of Defense awards \\$14 million for two UCSB-led research projects](#)

☒ April 11, 2011

[Engineers Design Molecular Probes to Study Cancer](#)

☒ April 5, 2011

[Santa Barbara Summit on Energy Efficiency](#)

Santa Barbara Summit on Energy Efficiency looks to a sustainable energy future

☒ February 15, 2011

[Professor Katie Byl Awarded 2011 Sloan Research Fellowship in Neuroscience](#)

☒ February 8, 2011

[National Engineering Academy Elects Two From Santa Barbara](#)

David Awschalom and Yulun Wang

☒ January 18, 2011

Thomson Awarded 2011 King Faisal International Prize for Medicine

☒ January 4, 2011

ICB Researcher Frances Arnold Receives Prestigious Charles Stark Draper Prize
