Electrical and Computer Engineering at UCSB Celebrates 50 Years

Join the Electrical and Computer Engineering Department for a
50th Anniversary Kick-off Event on Friday, April 27, 2012

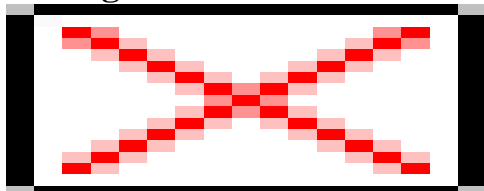

Alumni Gathering

1:30pm Harold Frank Hall room 4164

Join faculty and your fellow alumni at a reception to catch up on lost time and hear about the department's future plans.

Distinguished Lecture

Robert M. Gray: California Coding

3:00pm Engineering Science Building, room 2001

In 1974, UCSB faculty and students were pioneers in the first packet speech communication over the Arpanet, the forerunner to what we now call Voice Over Internet Protocol (VoIP). Hear distinguished guest lecturer Robert M. Gray give a talk titled **California Coding**: early LPC speech in Santa Barbara, Marina del Rey, and Silicon Valley, and its accidental impact on the Internet protocol.

RSVP requested. Email: gibson-aa [at] ece.ucsb.edu

Check back at www.ece.ucsb.edu all year long for more information about coming events.
