

UCSB Postdoctoral Fellow Wins Baxter Young Investigator Award

Postdoctoral Fellow [Seung Soo Oh](#) is one of the 2013 recipients of the Baxter Young Investigator Award for his research on aptamer polymer hybrids. Oh is a researcher in the [Soh Lab](#) and in the [Hawker Research Group](#) at UCSB.

Baxter International Inc. is a global healthcare company specializing in medical devices, pharmaceuticals, and biotechnology. To further promote innovative research, Baxter sponsors an annual award program for graduate students and postdoctoral fellows.

[Baxter's Young Investigator Awards](#) are intended to stimulate and reward research applicable to the development of therapies and medical products that save and sustain patients' lives. First tier awards include a \$2,000 cash prize and an onsite presentation of the award-winning research. Second tier awards will receive a \$500 cash prize.
