

DISCOVER ENGINEERING

Tuesday, September 30, 2014

12:00 - 2:00pm

Mark your calendars for Discover Engineering 2014! Join us for a special Week of Welcome event for all new freshmen and transfer students in the UCSB College of Engineering. Details TBA.

Feeling hungry? Take a break from dining hall food and enjoy lunch on us!

Want to make new friends *and* do extracurricular activities? Discover your passion by exploring the various engineering student organizations.

Need help getting academically oriented? Our friendly College of Engineering and department advisors will be on hand to answer any questions.

Feeling ambitious or even *adventurous*? Come learn about the College's Honors Program and where the Education Abroad Program (EAP) can take you.

Want to get a head start on identifying career objectives? Find out how Career Services can help you find a job, internship, or research opportunity.

Interested in how UCSB Engineering can enhance your collegiate career? See what the California Nanosystems Institute (CNSI), Center for Bioengineering (CBE), Center for Science and Engineering Partnerships (CSEP), and Technology Management Program (TMP) are all about.

Be sure to check your Umail account for event details and reminders in September 2014.
