# 2022-2023 Academic Calendar

Note: Dates subject to change without notice.

|                                   | Fall 2022             | Winter 2023       | Spring 2023      |
|-----------------------------------|-----------------------|-------------------|------------------|
| <b>Quarter begins</b>             | September 18, 2022    | January 9, 2023   | April 3, 2023    |
| <b>New Student Convocation</b>    | September 19, 2022    |                   |                  |
| <b>Pre-instruction Activities</b> | September 19-21, 2022 | January 9, 2023   | April 3, 2023    |
| <b>First day of instruction</b>   | September 22, 2022    | January 9, 2023   | April 3, 2023    |
| <b>Last day of instruction</b>    | December 2, 2022      | March 17, 2023    | June 9, 2023     |
| <b>Final examinations</b>         | December 3-9, 2022    | March 18-24, 2023 | June 10-16, 2023 |
| <b>Quarter ends</b>               | December 9, 2022      | March 24, 2023    | June 16, 2023    |
| <b>Commencement</b>               |                       |                   | June 17-18, 2023 |

## 2022-2023 Campus Holidays Observed

**Veterans Day:** ..... November 11, 2022  
**Thanksgiving:** ..... November 24-25, 2022  
**Christmas:** ..... December 23-26, 2022  
**New Year:** ..... December 30, 2022 - January 2, 2023  
**Martin Luther King, Jr. Day:** .. January 16, 2023  
**Presidents' Day:** ..... February 20, 2023  
**Cesar Chavez Holiday:** ..... March 31, 2023  
**Memorial Day:** ..... May 29, 2023  
**Juneteenth:** ..... TBD  
**Independence Day:** ..... July 4, 2023  
**Labor Day:** ..... September 4, 2023

### Produced by the College of Engineering, Office of Undergraduate Studies

All announcements herein are subject to revision without notice.

### EQUAL OPPORTUNITY AND NONDISCRIMINATION

The University of California, in accordance with applicable Federal and State law and University policy, does not discriminate on the basis of race, color, national origin, religion, sex, gender identity, pregnancy<sup>1</sup>, disability, age, medical condition (cancer related), ancestry, marital status, citizenship, sexual orientation, or status as a Vietnam-era veteran or special disabled veteran. The University also prohibits sexual harassment. This nondiscrimination policy covers admission, access, and treatment in University programs and activities.

Inquiries regarding the University's student-related nondiscrimination policies may be directed to the Director of Equal Opportunity at (805) 893-3089.

<sup>1</sup> Pregnancy includes pregnancy, childbirth, and medical conditions related to pregnancy or childbirth.

change each academic year.

# Message from the Associate Dean

**Glenn Beltz**, Associate Dean  
*Photo by Emily Swindle*

Welcome to the College of Engineering at UC Santa Barbara. There are many reasons we are one of the top engineering schools in the nation. We bring together an amazing faculty, the members of which are highly acclaimed in the scientific communities in which they work. UCSB professors are, in fact, among the most cited by their colleagues worldwide, a testament to the quality and creativity of their research. A high percentage of the faculty has been elected to the prestigious National Academy of Sciences and National Academy of Engineering. We have six Nobel Prize winners on this campus, five of whom are faculty in engineering and the sciences. We're also home to an amazing group of smart, accomplished, high-energy students. These more than 1,600 undergraduates, pursuing a variety of interests, contribute greatly to the quality of the learning environment as well as to the overall richness of campus life.

We have crafted courses that balance theory and applied science so our students are well prepared for successful careers in academia and in industry. Students especially interested in engineering and industry can take advantage of courses offered in Technology Management. Through coursework and "real

world" experiences, the program gives our students insight into the world of technology from a business perspective. We want our students to understand what transforms a good technical idea into a good business idea. We want to give them a head start at attaining leadership positions in the technology business sector.

With a thriving interdisciplinary environment, our campus culture fosters creativity and discovery. A truly interdisciplinary culture allows all sorts of ideas to cross-fertilize and makes it easy for faculty to work effectively between disciplines to tackle big questions. Visiting scholars tell us they don't often see the kind of openness among departments and ease of collaboration that they find here.

As part of the prestigious and well-established University of California system, we have the resources as well as the breadth and depth of talent to pursue new fields of scientific inquiry. We also bring an entrepreneurial attitude to our research, focusing on applications as much as discovery.

Our leading programs in areas as diverse as biotechnology, communications, computer security, materials, nanotechnology, networking, and photonic devices attest to the success of this approach.

At the core of this activity are our students, our central purpose. We encourage you to pursue every opportunity, both inside and outside the classroom, to enhance your education. We have a talented and wise faculty and staff, equipped with extensive knowledge and diverse experience, to help you make decisions about courses and other activities as you pursue your degree. We look forward to having you in our classes, laboratories, and offices as you discover where your interests lead you.

A handwritten signature in black ink that reads "Glenn E. Beltz". The signature is fluid and cursive, with a long, sweeping horizontal line extending to the right from the end of the name.

Glenn Beltz  
Associate Dean for  
Undergraduate Studies

# UC SANTA BARBARA

## College of Engineering

The College of Engineering at UCSB is noted for its excellence in teaching, research, and service to the community. The college has an enrollment of approximately 1,600 undergraduate students and 750 graduate students with a full-time, permanent faculty of 129. This results in an excellent student to faculty ratio and a strong sense of community in the college.

Our modern laboratory facilities are available to undergraduate as well as graduate students. UCSB has an unusually high proportion of undergraduates who are actively involved in faculty-directed research and independent study projects.

The college offers the bachelor of science degree in five disciplines: chemical engineering, computer engineering, computer science, electrical engineering, and mechanical engineering. The undergraduate programs in chemical, computer, electrical, and mechanical engineering are accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.

The curriculum for the bachelor of science degree is designed to be completed in four years. Completion of the four-year program provides students with the background to begin professional careers or to enter graduate programs in engineering or computer science, or professional schools of business, medicine, or law. Our curricula are specifically planned to retain both of these options and to assure that our graduates are equally well prepared to enter industry and graduate study. The college and the university offer a wide variety of career counseling and job placement services.

The Office of Undergraduate Studies in Harold Frank Hall, Room 1006, provides academic advising for all undergraduates in the college. Faculty and academic advisors for the individual majors are also provided by the respective departments. This publication contains detailed information about the various programs and schedules and is published yearly. It is available on the web at: <https://engineering.ucsb.edu/gear>.

### Mission Statement

The mission of the College of Engineering is to provide its students a firm grounding in scientific and mathematical fundamentals; experience in analysis, synthesis, and design of engineering systems; and exposure to current engineering practice and cutting edge engineering research and technology. A spirit of entrepreneurship in education, scholarly activity and participation in engineering practice infuses UCSB's College of Engineering.

### College of Engineering Honors Program

The Honors Program in the College of Engineering is designed to enrich the educational opportunities of its best students. Students in the Honors Program will be encouraged to participate in early experiences in scholarship through special seminars and, in later years, as members of research teams.

Participation in the Honors Program offers housing in Scholar's Halls located in several university-owned residence hall to eligible first-year students, as well as graduate student library privileges to all students in the program. Special lectures and tours may be offered throughout the academic year.

The College of Engineering invites approximately the top 10% of incoming freshmen into the Honors Program based

on a comprehensive application review. (Please note: eligibility criteria are subject to change at any time.) Select transfer students will be invited to join the Program upon admission. Students who do not enter the College of Engineering with honors at the time of admission to UCSB may apply to join the program between first and second year after completing at least 36 letter-graded units with a cumulative GPA of 3.5 or higher, or between second and third year after completing at least 72 letter-graded units with a cumulative GPA of 3.5 or higher. Students may not join the Honors Program the summer between their junior and senior curriculum year.

Continued participation in the College Honors Program is dependent on maintaining a cumulative GPA of 3.5 or greater and active participation in both the academic and community service components of the Program.

To graduate as an Honors Program Scholar, students must complete 6.0 total Honors units during their junior and senior years; comprised of coursework from departmental 196, 197, 198, 199 courses, graduate level courses (numbered 200-299), or completing courses toward their engineering major through the UC Education Abroad Program with grades of B or higher. Students must also complete a total of 10 hours of community service for each year they are program members and maintain a 3.5 or higher cumulative GPA at the end of each spring quarter.

Notes: Capstone participation/courses do not apply to honors credit, nor do graduate courses taken to satisfy requirements for a graduate degree. Paid research positions cannot apply.

### Dean's Honors

The College of Engineering gives public recognition to its outstanding undergraduate students by awarding Dean's Honors at the end of each regular academic term to students who have earned a 3.75 grade-point average for the quarter and have completed a program of 12 or more letter-graded units. Grades of Not Passed automatically disqualify students for eligibility for Dean's Honors. The award is

noted quarterly on the student's permanent transcript.

Graduating students of the College of Engineering who have achieved distinguished scholarship while at the university may qualify for Honors, High Honors, or Highest Honors at graduation.

### **Tau Beta Pi**

Tau Beta Pi is the nation's oldest and largest engineering honor society. Its purpose is to honor academic achievement in engineering. Election to membership is by invitation only. To be eligible for consideration, students must be in the top one-eighth of their junior class or the top one-fifth of the senior class. Graduate students and faculty also belong to this honor society. In addition to regular meetings on campus, the organization participates in regional and national activities and sponsors local events, such as tutoring and leadership training, to serve the campus and community.

## **Education Abroad Program (EAP)**

Students are encouraged to broaden their academic experience by studying abroad for a year, or part of a year, under the auspices of the University of California Education Abroad Program. See the EAP web site for more information: [www.eap.ucsb.edu](http://www.eap.ucsb.edu)

## **Student Organizations**

Student chapters of a number of engineering professional organizations are active on the UCSB campus. Students interested in any of these organizations may contact the Office of Undergraduate Studies of the College of Engineering for more information.

- American Indians in Science and Engineering Society
- American Institute of Chemical Engineers
- American Society of Mechanical Engineers
- Association for Computing Machinery
- Coders SB
- Data Science at UCSB
- Engineering Student Council
- Engineers Without Borders
- Entrepreneurs Association
- Institute of Electrical and Electronics Engineers
- Los Ingenieros (Mexican-American Engineering Society/Society of Hispanic Professional Engineers)
- Machine Shop Club
- National Society of Black Engineers
- Out in Science, Technology, Engineering, and Mathematics
- Phi Sigma Rho

- Photonics Society at UCSB
- Robotics Club
- SB Hacks
- Society for Advancement of Chicano and Native Americans in Science
- Society of Asian Scientists and Engineers
- Society of Automotive Engineers
- Society of Women Engineers
- Theta Tau
- Women in Computer Science
- Women in Science and Engineering
- Women in Software and Hardware

## **Change of Major and Change of College**

Current UCSB students in a non-engineering major, as well as students wishing to change from one engineering major to another, are welcome to apply after the satisfactory completion of a pre-defined set of coursework. However, due to the current demand for engineering majors, students are cautioned that it is a very competitive process and not all applicants will be able to change their majors due to limited space availability. It is incumbent upon students to continue to make progress in a backup major while pursuing a new major in the College of Engineering, and to periodically consult academic advisors in both the desired major as well as the backup major regarding the viability of pursuing the change of major.

Students who enter UCSB as transfer students will not be able to change to or add an engineering major, if not initially accepted into one. Students who began as freshmen who plan to enter an engineering major or to change from one engineering major to another will be expected to complete at least 30 units at UCSB before petitioning for a change of major and usually must satisfy the prerequisites of the prospective major.

The College of Engineering will not accept students from the College of Creative Studies or the College of Letters and Science after they have completed

105 units, regardless of their expected unit total at graduation. Students must be at or below 105 units at the time required change of major courses are completed.

Notwithstanding any of the major-specific requirements described below, we caution that the capacity of any given program to accept new students changes, sometimes substantially, from year to year.

**Chemical Engineering.** Admission to the Chemical Engineering major is determined by a number of factors, including each student's academic performance and trajectory, as well as current enrollments in Chemical Engineering classes. Freshman should apply during the spring term of their freshman year, and may reapply during their sophomore year. Sophomores may only apply one time during the spring term of their sophomore year. Applicants must have a 3.0 GPA or above, and satisfactorily complete the following courses or their equivalents: Math 3A, 3B, 4A; Chem 1A-1AL or 2A-2AC, 1B-1BL or 2B-2BC, and 1C-1CL or 2C-2CC. Recommended courses include: ENGR 3; Physics 1-2; ChE 5, 10, 110AB (110AB may be taken concurrently at time of application).

**Computer Engineering.** Students may petition to enter the Computer Engineering major at any time both of the following requirements are met:

1. An overall UCSB grade point average of at least 3.0.
2. Satisfactory completion at UCSB, with a grade point average of 3.0 or better, of any five classes, including at least two Electrical & Computer Engineering (ECE) classes and two Computer Science (CMPSC) classes, from the following: Math 4B, ECE 10A/10AL, 10B/10BL, 10C/10CL (ECE 10A/10AL, 10B/10BL, 10C/10CL each count as one course), ECE 15A, CMPSC 16, 24, 32, 40.

Acceptance into the major will be based on UC grade point averages, applicable courses completed, and space availability. All students considering changing into Computer Engineering are required to meet with the ECE Academic Advisor during their first year.

**Computer Science.** The application process is extremely competitive. A very limited number of change of major applications to Computer Science will be approved. Students may apply for consideration to the Computer Science major when the following requirements are met. No exceptions are made for these

requirements and meeting these requirements does not guarantee admission to the Computer Science major:

1. A cumulative overall grade point average of at least 3.0;
2. Satisfactory completion of Computer Science 16, 24, and 40 with a cumulative GPA of 3.2 or higher; First takes only;
3. Satisfactory completion of Math 3A, 3B, 4A, and 4B with a cumulative GPA of 3.0 or higher; First takes only.

Denied change of major applications will not be reconsidered. More information can be found at <https://cs.ucsb.edu/education/undergrad/admissions>. No exceptions are made for these requirements.

**Electrical Engineering.** Students may petition to enter the Electrical Engineering major once both of the following requirements are met:

1. An overall UCSB grade point average of at least 3.0.
2. Satisfactory completion at UCSB, with a grade point average of 3.0 or better, of at least five classes, including at least two mathematics classes, from the following: Math 4B, Math 6A, Math 6B, ECE 10A/10AL, 10B/10BL, 10C/10CL (ECE 10A/10AL, 10B/10BL, 10C/10CL each count as one course), ECE 15A. The calculation of the minimum GPA will be based on all classes completed from this list at the time of petitioning.

Acceptance into the major will be based on UC grade point averages, applicable courses completed, and space availability. All students considering changing into Electrical Engineering are required to meet with the ECE Academic Advisor during their first year.

**Mechanical Engineering.** Admission by change of major into Mechanical Engineering is both limited and competitive. Petitions are required once students have been admitted through the change of major process. Mechanical Engineering requires a minimum of eight core courses from the following list: Math 3A-B; Math 4A-B; Math 6A-B; Physics 1, 2, 3/3L; ENGR 3; Chemistry 1A-1B; ME 10; ME 14, 15, 17 (three of the eight courses must include PHYS 3/3L, ME 14, and ME 17). Acceptance into the major is based on UC grade point average, applicable courses completed, and space availability. Starting for freshmen fall 2021, ME will be allowing CSU and CCC grades to be included in the minimum six courses that are calculated for a prep GPA (these grades are not calculated into your official UCSB GPA).

These grades must be submitted officially and be reflected in GOLD. Students are able to repeat courses as long as they follow the university guidelines for repeating courses. All students considering changing into Mechanical Engineering must notify the ME Academic Advisor and report all core course grades after each quarter to update preparatory GPA calculation. It is highly recommended to follow the ME program as closely as possible to best be prepared to switch into ME; all while keeping a backup major in mind in the likely chance the department is not able to accommodate your request to change into ME.

## Degree Requirements

To be eligible for a bachelor of science degree from the College of Engineering, students must meet three sets of requirements: general university requirements, college general education requirements, and major degree requirements.

### General University Requirements

All undergraduate students must satisfy university academic residency, UC Entry Level Writing Requirement, American History and Institutions, unit, and scholarship requirements. These requirements are described fully on page 11.

### College General Education Requirements

All students must satisfy the general education requirements for the College of Engineering. These requirements are described on page 11.

### Major Degree Requirements

Preparation for the major and major requirements for each program must be satisfied, including unit and GPA requirements. These appear in subsequent sections of this publication.

### Advanced Placement Credit

Students who complete special advanced placement courses in high school and who earn scores of 3, 4, or 5 on the College Board Advanced Placement taken before high school graduation will receive 2, 4, or 8 units of credit toward graduation at UCSB for each such test completed with the required scores, provided scores are reported to the Office of Admissions. The specific unit values assigned to each test, course equivalents, and the applicability of these credits to the General Education requirements are presented in the chart on page 8.

### International Baccalaureate Credit

Students who earn scores of 5, 6, or 7 on International Baccalaureate (IB) Higher Level (HL) Examinations taken before high school graduation will receive 8 units of credit toward graduation at UCSB for each such test completed with the required scores, provided official scores are submitted to the Office of Admissions. Students who complete the IB diploma with a score of 30 or above will receive 6 quarter units in addition to the units earned for individual Higher Level exams.

## Minimal Progress Requirements

A student in the College of Engineering may be placed on academic probation if the total number of units passed at UCSB is fewer than what is prescribed by the prevailing academic Senate regulation regarding Minimum Cumulative Progress. At least three-fourths of the minimum number of academic units passed must include courses prescribed for the major.

The following courses may be counted toward the unit minimums: courses repeated to raise C-, D, or F grades; courses passed by examination; courses graded IP (In Progress); courses passed during summer session at UCSB or at another accredited college or university and transferred to UCSB.

Students must obtain the approval of the Associate Dean for Undergraduate Studies to deviate from these requirements. Approval normally will be granted only in cases of medical disability, severe personal problems, or accidents.

Students enrolled in dual-degree programs must submit their proposed programs of study to the Associate Dean for Undergraduate Studies in the College of Engineering for approval. The individual programs must contain comparable standards of minimal academic progress.

### 215-Unit and Quarter Enrollment Limitations

The college expects students to graduate within 12 regular quarters for students who are admitted as freshmen and 9 regular quarters for students admitted as junior transfers and with no more than 215 units. College credit earned before high school graduation does not count toward the 215-unit maximum. This includes credit for Advanced Placement and International Baccalaureate examinations, and also college or university credit earned while still in high school.

Students who are admitted as freshmen and remain continuously enrolled will be assessed after 12 regular quarters at UCSB, and transfer students admitted as

juniors will be assessed after 9 regular quarters at UCSB. Summer session does not count as a regular quarter in this calculation but units earned in summer session do apply toward the 215-unit maximum.

With the exception of summer sessions, if students leave UCSB and earn a large number of units at one or more other academic institutions while they are away, the number of quarters allowed at UCSB will be reduced in proportion to the number of terms completed elsewhere.

College policy requires students to secure specific approval to continue enrollment beyond the quarter and unit limits noted above. Students who think they may exceed both the quarter limitations and 215 units may submit a Proposed Schedule for Graduation (Study Plan) for consideration by the Associate Dean for Undergraduate Studies, but they should understand that approval is granted in limited circumstances.

Note: The College of Engineering will not accept students from the College of Creative Studies or the College of Letters and Science after they have completed 105 units, regardless of their expected unit total at graduation.

## Five-Year B.S./M.S. Degree Programs

**Five-Year B.S. / M.S. in Computer Science.** A combined BS/MS Program in Computer Science provides an opportunity for outstanding undergraduates to earn both degrees in five years. Additional information about this program is available from the Computer Science graduate advisor. Interested students should make their interest known to the department early in their junior year. Advising and application materials are also available in the Department of Computer Science office.

### Five-Year B.S. in Computer Engineering / M.S. in Computer Science

The Computer Engineering Program incorporates the design of computer hardware and software to meet the needs for various career applications. Students are trained to work with systems ranging from small integrated circuits to worldwide communications networks, from digital watches to supercomputers, and from single-line programs to operating systems. For more information on the program, please consult the Computer Engineering department.

### Five-Year B.S. in Computer Engineering or Electrical Engineering / M.S. in Electrical and Computer Engineering.

A combined BS/MS Program in Computer Science provides an opportunity for outstanding undergraduates to earn both degrees in five years. Additional information about this program is available from the Electrical and Computer Engineering graduate advisor. Interested students should make their interest known to the department early in their junior year. Advising and application materials are also available in the Department of Electrical and Computer Engineering office.

### Five-Year B.S. in Chemical Engineering, Electrical Engineering, or Mechanical Engineering / M.S. in Materials

A combined B.S. Engineering/ M.S. Materials program provides an opportunity for outstanding undergraduates in Chemical, Electrical, or Mechanical engineering to earn both of these degrees in five years. This program enables students to develop all of the requisite knowledge in their core engineering disciplines and to complement this with a solid background in Materials. This combination provides highly desirable training from an industrial employment perspective and capitalizes on the strengths of our internationally renowned Materials department.

There is a five-year option for students who are pursuing a B.S. in Chemistry in the College of Letters and Science to complete an M.S. degree in Materials.

Interested students in their sophomore year should contact the Staff Graduate Advisor in the Materials Department for additional information.

### Five-Year B.S. / M.S. in Mechanical Engineering.

A combined B.S./M.S. program in Mechanical Engineering provides an opportunity for outstanding undergraduates to earn both degrees in five years. Additional information about this program is available from the Mechanical Engineering Undergrad Advising office. Interested students should contact the office fall quarter of their junior year. In addition to fulfilling undergraduate degree requirements, B.S./M.S. degree candidates must meet Graduate Division degree requirements, including university requirements for academic residence and units of coursework.

## Undergraduate Certificate Program

### The Technology Management Certificate

Department of Technology Management  
Phelps Hall, Room 2219  
(805) 893-2729  
[www.tmp.ucsb.edu](http://www.tmp.ucsb.edu)

The Technology Management Certificate program provides students a solid foundation in business fundamentals and entrepreneurship as it applies to new technologies and technology-oriented companies. This certificate serves as an official recognition that the student has a solid grounding in fundamental business strategies and models, opportunity recognition and new venture creation and marketing.

The program also provides access to many professionals familiar with the demands of starting new businesses as well as running existing companies through its extra-curricular offerings.

# College Board Advanced Placement Credit

Students who earn scores of 3, 4, or 5 on College Board Advanced Placement Examinations taken before high school graduation will receive 2, 4, or 8 units of credit toward graduation at UCSB for each such test completed with the required scores, provided official scores are submitted to the Office of Admissions.

Students should be advised that college courses taken before or after attending UC may duplicate AP, IB and/or A Level examinations. Additionally, exams may duplicate each other (for example, and AP or IB exam in the same subject area). If the student does duplicate an exam with another exam of the same subject content, and/or an exam with a college course, we will award credit only once.

\* A maximum of 8 units EACH in art studio, English, Mathematics, and Physics is allowed.

+ 8 units effective Spring 2018. Computer Science A exam is 2 units through Spring 2017.

Note: Information on this chart is subject to change. For updates go to: <http://my.sa.ucsb.edu/catalog/current/UndergraduateEducation/APCreditandChart.aspx>.

## A Level Examination Credit

Students who earn grades of A, B, or C on UC-approved GCE and Hong Kong A Level examinations will receive 12 units of credit toward graduation at UCSB for each exam, provided that official grades are submitted to the Office of Admissions. Any general education credit or UCSB course equivalents listed in the chart below will be awarded only for Cambridge International A Level exams taken in 2013 or later, not for exams administered by any other agency. (Student may petition for GE or course credit for Cambridge International exams taken prior to 2013 or for exams administered by other agencies.)

Students should be advised that college courses taken before or after attending UC may duplicate AP, IB and/or A Level examinations. Additionally, exams may duplicate each other (for example, an AP or IB exam in the same subject area). If the student does duplicate an exam with another exam of the same subject content, and/or an exam with a college course, we will award credit only once.

# International Baccalaureate Higher Level Examinations

Students who earn scores of 5, 6, or 7 on International Baccalaureate (IB) Higher Level (HL) Examinations taken before high school graduation will receive 8 units of credit toward graduation at UCSB for each such test completed with the required scores, provided official scores are submitted to the Office of Admissions. Students who complete the IB diploma with a score of 30 or above will receive 6 quarter units in addition to the units earned for individual Higher Level exams. The university does not grant credit for Standard Level (SL) exams. The application of this credit to the General Education requirements and course equivalents for these exams are listed below.

Students should be advised that college courses taken before or after attending UC may duplicate AP, IB and/or A Level examinations. Additionally, exams may duplicate each other (for example, an AP or IB exam in the same subject area). If the student does duplicate an exam with another exam of the same subject content, and/or an exam with a college course, we will award credit only once.

## INTERNATIONAL BACCALAUREATE INFORMATION

| Exam with score of 5, 6, Or 7                                  | Units | COE GE Credit       | UCSB Equivalent Course(s)                              |

## General University Requirements

### UC Entry Level Writing Requirement

All students entering the University of California must demonstrate an ability to write effectively by fulfilling the Entry Level Writing requirement. The requirement may be met in one of the following ways prior to admission:

1. by achieving a score of 680 or higher on the Writing section of the SAT Reasoning Test;
2. by achieving a score of 30 or higher on the ACT Combined English Language Arts (ELA) test;
3. by achieving a score of 3 or higher on the College Board Advanced Placement Examination in English Composition and Literature or English Language and Composition;
4. by achieving a score of 5, 6, or 7 on the higher level English A International Baccalaureate Examination;
5. by achieving a score of 6 or 7 on the standard level English A1 International Baccalaureate Examination;
6. by passing the University of California systemwide Analytical Writing Placement Exam while in high school;
7. by earning a grade of C or higher in a course accepted as equivalent to Writing 2 worth 4 quarter or 3 semester units.

Students who have not met the UC Entry Level Writing Requirement in one of the ways listed above will be required to take a placement exam.

Students who do not achieve an appropriate score on the placement exam to fulfill the Entry Level Writing Requirement must enroll in Writing 1, 1E, or Linguistics 12 within their first year at UCSB.

Visit the Writing Program's website ([writing.ucsb.edu/academics](http://writing.ucsb.edu/academics)) for placement exam information.

### American History and Institutions Requirement

The American History and Institutions requirement is based on the principle that American students enrolled at an American university should have some knowledge of the history and government of their country. You may meet this requirement in any one of the following ways:

1. by achieving a score of 3 or higher on the College Board Advanced Placement Examination in American History or American Government and Politics; or
2. by passing a non-credit examination in American history or American institutions, offered in the Department of History during the first week of each quarter. Consult the department for further information; or
3. by achieving a score of 650 or higher on SAT II: Subject Test in American History; or
4. by completing one four-unit course from the following list of courses:

Anthropology 131, 176B  
 Art History 121A-B-C-E, 136H  
 Asian American Studies 1, 2  
 Black Studies 1, 6, 20, 103, 137E, 169BR-CR  
 Chicano Studies 1A-B-C, 144, 168A-B, 174, 188C  
 Comparative Literature 133  
 Economics 113A-B, 119  
 English 133AA-ZZ, 134AA-ZZ, 137A-B, 191  
 Environmental Studies 173  
 Feminist Studies 155A, 159B-C  
 History 11A, 17A-B-C, 17AH-BH-CH, 105A, 142AL-S, 159B-C, 160A-B, 161A-B, 164C, 164IA-IB, 165, 166A-B-C-D-LB, 168A-B-C-D-N-M, 169AR-BR-CR, 169M, 172A-B, 173T, 175A-B, 176A-B, 177, 178A-B, 179A-B  
 Military Science 27  
 Political Science 12, 115, 127, 151, 152, 153, 155, 157, 158, 162, 165, 180, 185  
 Religious Studies 7, 14, 151A-B, 152  
 Sociology 137E, 140, 144, 155A  
 Theater 180A-B

Courses used to fulfill the American History and Institutions requirement may also be applied to General Education or major requirements, or both where appropriate. Equivalent courses taken at other accredited colleges or universities, in UC Extension, or in summer session may be acceptable. Students who transfer to UCSB from another campus of the University of California where the American History and Institutions Requirement has been considered satisfied will automatically fulfill the requirement at UCSB.

International students on a nonimmigrant visa may petition for a waiver of this requirement.

### College of Engineering General Education Requirements

The aims of the General Education Program in the College of Engineering are to provide a body of knowledge of general intellectual value that will give the student a broad cultural base and to meet the objectives of the engineering profession. An appreciation and understanding of the humanities and social sciences are important in making engineers aware of their social responsibilities and enabling them to consider related factors in the decision-making process.

Students in the College of Engineering must complete the General Education requirements in order to qualify for graduation. Students are reminded that other degree requirements exist and that they are responsible for familiarizing themselves with all bachelor's degree requirements. Please see the GOLD system for General Education courses offered during a particular quarter.

It should be noted that for College of Engineering transfers who completed IGETC (Intersegmental General Education Transfer Curriculum), it may be used to substitute for entire UCSB College of Engineering General Education pattern (IGETC does not satisfy the American History and Institutions requirement).

Students who have questions about the General Education requirements should consult with the advisors in College of Engineering Office of Undergraduate Studies.

### GENERAL SUBJECT AREA REQUIREMENTS

A total of 8 courses is required to satisfy the General Education requirements of the College of Engineering. All students must follow the pattern of distribution shown below:

#### I. Area A: English Reading and Composition

Two courses must be completed in this area and taken for letter grades. Writing 2 or 2E, and one course from Writing 50, 50E, 105CD, 105CW, 105M, 105PD, 105PS, 105S, 105SW, 107B, 107EP, 107G, 107J, 107L, 107M, 107T, 107WC, 109ED, 109ES, 109HP, or 109ST are required.

Chemical Engineering, Computer Engineering, Electrical Engineering, and Mechanical Engineering majors are strongly encouraged to take Writing 2E and 50E in their first year

at UCSB. Computer Science majors may take Writing 2E and 50E space permitting.

NOTE: Students must complete the UC Entry Level Writing Requirement before enrolling in courses that fulfill the Area A requirement of the General Education program. Please refer to page 11 of this publication or the UCSB General Catalog for a list of ways to satisfy the UC Entry Level Writing requirement.

## II. Areas D, E, F, & G

At least 6 courses must be completed in these areas.

1. **Area D: Social Sciences.** A minimum of 2 courses must be completed in Area D. Objective: To apply perspectives, theories, and methods of social science research to understand what motivates, influences, and/or determines the behaviors of individuals, groups, and societies. Area D courses are based upon systematic studies of human behavior, which may include observation, experimentation, deductive reasoning, and quantitative analysis.
1. **Area E: Culture and Thought.** A minimum of 2 courses must be completed in Area E. Objective: To use specific methods and frameworks to develop perspectives and abilities that enable the study of culture and thought within specific contexts, and to recognize the role of human agency in defining, maintaining, and adapting cultures.
1. **Area F: The Arts.** A minimum of 1 course must be completed in Area F. Objective: To develop an appreciation of fine and performing arts, popular arts, and visual culture and to express relationships between arts and historical or cultural contexts.
1. **Area G: Literature.** A minimum of 1 course must be completed in Area G. Objective: To learn to analyze texts using methods appropriate to literary study and to situate analysis within contexts where texts circulate.

The general provisions relating to General Education requirements, as listed on page 12, must be followed when completing courses in Areas D, E, F, and G.

## SPECIAL SUBJECT AREA REQUIREMENTS

In the process of fulfilling the General Education General Subject Areas D through G requirements, students must complete the following Special Subject Area requirements:

1. **Writing Requirement.** Objective: To study and practice with writing, reading, and critical analysis within specific disciplines. Students will demonstrate abilities by producing written work totaling at least 1,800 words that is independent of or in addition to written examinations. Assessment of written work must be a significant consideration in total assessment of student performance in the course. At least four designated General Education courses that meet the following criteria: (1) the courses require one to three papers totaling at least 1,800 words, exclusive of elements such as footnotes, equations, tables of contents, or references; (2) the required papers are independent of or in addition to written examinations; and (3) the paper(s) is a significant consideration in the assessment of student performance in the course. The writing requirement may be met only with designated UCSB courses approved by the Academic Senate.

NOTES: ENGR 101 may be used as a writing requirement class, even by those students for whom ENGR 101 is required.

New transfer students should consult with the College Undergraduate Studies Office regarding this requirement.

2. **Ethnicity Requirement.** Objective: To learn to identify and understand the philosophical, intellectual, historical, and/or cultural experiences of historically oppressed and excluded racial minorities in the United States. At least one course in this area is required.
3. **European Traditions or World Cultures Requirement.**

European Traditions Objective: To learn to analyze early and/or modern European cultures and their significance in world affairs.

World Cultures objective: To learn to identify, understand, and appreciate the history, thought, and practices of

one or more cultures outside of the European Tradition.

At least one course from either of these areas (European Traditions or World Cultures) is required.

## Other Regulations:

- A course listed in more than one general subject area can be applied to only one of these areas. (Example: Art History 6A cannot be applied to both Areas E and F.) However, a course can be applied towards a single general subject area and any special subject areas which that course fulfills. (Example: Asian American Studies 4 can be applied to the Writing and Ethnicity requirements in addition to the Area F requirement.)
- Some courses taken to satisfy the General Education requirements may also be applied simultaneously to the American History and Institutions requirement. Such courses must be on the list of approved General Education courses and on the list of approved American History and Institutions courses.
- Courses taken to fulfill a General Education requirement may be taken on a P/NP basis, if the course is offered with that grading option (refer to GOLD for the grading option for a particular course).

## CHECKLIST OF GENERAL UNIVERSITY AND GENERAL EDUCATION REQUIREMENTS

### GENERAL UNIVERSITY REQUIREMENTS

**UC Entry Level Writing Requirement** – (Must be fulfilled within three quarters of admission.)

Passed Exam \_\_\_\_\_ or Writing 1, 1E or Ling 12 \_\_\_\_\_ or transferred appropriate course \_\_\_\_\_

**American History and Institutions\*** – (Refer to page 8 for the list of acceptable courses.)

One course \_\_\_\_\_ or Advanced Placement \_\_\_\_\_ or International waiver \_\_\_\_\_

\*This course may also apply to the General Education requirements, if appropriate.

### GENERAL EDUCATION REQUIREMENTS

A course listed in more than one General Subject Area can be applied to only **one area**. Course total in Areas D, E, F, and G must be **at least 6**.

#### General Subject Areas

#### 1. **Area A: English Reading and Composition**

Writing 2 or 2E and Writing 50, 50E, 105CD, 105CW, 105M, 105PD, 105PS, 105S, 105SW, 107B, 107EP, 107G, 107J, 107L, 107M, 107T, 107WC, 109ED, 109ES, 109HP, or 109ST

\_\_\_\_\_

\_\_\_\_\_

#### 2. **Area D: Social Sciences** (2 courses minimum)

\_\_\_\_\_

\_\_\_\_\_

#### 3. **Area E: Culture and Thought** (2 courses minimum)

\_\_\_\_\_

\_\_\_\_\_

#### 4. **Area F: The Arts** (1 course minimum)

\_\_\_\_\_

#### 5. **Area G: Literature** (1 course minimum)

\_\_\_\_\_

#### Special Subject Areas

In the process of fulfilling the G.E. General Subject Area requirements, students must fulfill the following Special Subject Area requirements, as outlined on page 11. **Only approved courses can be used to fulfill these requirements.**

#### a. **Writing Requirement – (4 courses)**

\_\_\_\_\_

#### b. **Ethnicity Requirement – (1 course)** \_\_\_\_\_

#### c. **European Traditions or World Cultures Requirement – (1 course)** \_\_\_\_\_

<sup>1</sup>Three units maximum from CH E 196 and CH E 198 combined; only for students with GPA of 3.0 or higher.

### Technical electives taken:

To satisfy major requirements, courses taken inside or outside the Department of Electrical and Computer Engineering, must be taken for a letter grade.

### UNIVERSITY REQUIREMENTS

UC Entry Level Writing Requirement: English Composition  
 Must be fulfilled within three quarters of matriculation

American History and Institutions – (one 4-unit course, may be counted as G.E. if selected from approved list)

### GENERAL EDUCATION

#### General Subject Areas

Area A: English Reading & Comprehension – (2 courses required)

**A-1:** \_\_\_\_\_ **A-2:** \_\_\_\_\_

Area D: Social Science  
 (2 courses minimum)

Area E: Culture and Thought  
 (2 courses minimum)

Area F: The Arts  
 (1 course minimum)

Area G: Literature  
 (1 course minimum)

#### Special Subject Areas

Ethnicity (1 course): \_\_\_\_\_

European Traditions

**or** World Cultures (1 course): \_\_\_\_\_

Writing (4 courses required):

### NON-MAJOR ELECTIVES

Free Electives taken:

**TOTAL UNITS REQUIRED FOR GRADUATION .....187**

## CHEMICAL ENGINEERING 2022-23

This grid is intended to serve as a guide and should be adjusted for individual circumstances in consultation with academic advisors.  
Course availability subject to change. Changes will be announced by the department.

### FRESHMAN YEAR

| G.E.               | 4            | G.E.               | 4            | Technical Elective | 3            |
| Technical Elective | 3            | Technical Elective | 3            |                    |              |
| <b>TOTAL</b>       | <b>14</b>    |                    | <b>13</b>    |                    | <b>14</b>    |

\* If applying to the BS/MS Materials program, student must take:

Sophomore year- Phys 4 in Winter or Spring

Junior year- MATRL 100A in Fall, MATRL 100B in winter, MATRL 100C in Spring

^Students may only count one course toward the major. (MATRL 101 OR MATRL 100C)

## COMPUTER ENGINEERING 2022-23

Units

### PREPARATION FOR THE MAJOR

|   |    |
|---|----|
| CMPSC 16 . . . . .                            | 4  |
| CMPSC 24 . . . . .                            | 4  |
| CMPSC 32 . . . . .                            | 4  |
| CMPSC 40 . . . . .                            | 5  |
| ECE 1A- 1B . . . . .                          | 2  |
| ECE 5 . . . . .                               | 4  |
| ECE 10A, 10AL, 10B, 10BL, 10C, 10CL . . . . . | 15 |
| ECE 15A . . . . .                             | 4  |
| MATH 2A-B or 3A-B, 4A-B, 6A . . . . .         | 20 |
| PHYS 1, 2, 3, 3L, 4, 4L . . . . .             | 16 |

### UPPER DIVISION MAJOR 68

|   |      |
|---|------|
| CMPSC 130A . . . . .                      | 4    |
| ECE 139 or PSTAT 120A . . . . .           | 4    |
| ECE 152A . . . . .                        | 5    |
| ECE 154A . . . . .                        | 4    |
| ENGR 101 . . . . .                        | 3    |
| CMPSC 189 A-B* / ECE 189+ A-B-C . . . . . | 8-12 |

\* Prerequisite to CMPSC 189A is CMPSC 156

+ Prerequisite to ECE 189A is ECE 153B

Computer Engineering electives selected  
from the following list: . . . . . 36-40

*Prior approval of the student's departmental electives must be obtained  
from the student's faculty adviser.*

Must include at least 2 sequences. See ECE Department  
student office for list of approved sequences.

|                |              |                 |
|----------------|--------------|-----------------|
| CMPSC 130B     | ECE 181      | ECE 180         |
| CMPSC 138      | ECE 122A-B   | ECE 194AA-194ZZ |
| CMPSC 153A/    | ECE 123      | (except 194R)   |
| ECE 153A       | ECE 130A-B-C |                 |
| CMPSC 156      | ECE 133      |                 |
| CMPSC 160      | ECE 147A-B   |                 |
| CMPSC 162      | ECE 149      |                 |

| CMPSC 176A-B-C | ECE 160      |                 |
| CMPSC 177      | ECE 178      |                 |
| CMPSC 178      | ECE 179D,    |                 |
| CMPSC 181/     | 179P         |                 |

Computer Engineering electives taken: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

To satisfy major requirements, courses taken inside or outside  
the Department of Electrical and Computer Engineering, must  
be taken for a letter grade.

### UNIVERSITY REQUIREMENTS

UC Entry Level Writing Requirement: English Composition  
Must be fulfilled within three quarters of matriculation

American History and Institutions – (one 4-unit course,  
may be counted as G.E. if selected from approved list)

### GENERAL EDUCATION

#### General Subject Areas

Area A: English Reading & Comprehension – (2 courses  
required)

**A-1:** \_\_\_\_\_ **A-2:** \_\_\_\_\_

Area D: Social Science  
(2 courses minimum)

Area E: Culture and Thought  
(2 courses minimum)

Area F: The Arts  
(1 course minimum)

Area G: Literature  
(1 course minimum)

#### Special Subject Areas

Ethnicity (1 course): \_\_\_\_\_

European Traditions  
**or** World Cultures (1 course): \_\_\_\_\_

Writing (4 courses required):  
\_\_\_\_\_  
\_\_\_\_\_

### NON-MAJOR ELECTIVES

Free Electives taken:  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**TOTAL UNITS REQUIRED FOR GRADUATION .....191**

## COMPUTER ENGINEERING 2022-23

This grid is intended to serve as a guide and should be adjusted for individual circumstances in consultation with academic advisors.  
Course availability subject to change. Changes will be announced by the department.

### FRESHMAN YEAR

| <b>FALL</b>                   | <b>units</b> | <b>WINTER</b>  | <b>units</b> | <b>SPRING</b>    | <b>units</b> |

### SENIOR YEAR

| <b>FALL</b>                                     | <b>units</b> | <b>WINTER</b>         | <b>units</b> | <b>SPRING</b>              | <b>units</b> |
|---|--------------|-----------------------|--------------|----------------------------|--------------|
| ECE 189A <sup>3</sup> / CMPSC 189A <sup>4</sup> | 4            | ECE 189B/ CMPSC 189B  | 4            | ECE 189C or CMPEN Elective | 4            |
| CMPEN Electives                                 | 8            | ENGR 101 <sup>5</sup> | 3            | CMPEN Elective             | 4            |
| G.E. <sup>6</sup>                               | 4            | CMPEN Elective        | 4            | G.E.                       | 4            |
|   |              | G.E.                  | 4            |                            |              |
| <b>TOTAL</b>                                    | <b>12</b>    |                       | <b>16</b>    |                            | <b>12</b>    |

<sup>1</sup> Students with no prior computer programming background should take either ECE 3 or CMPSC 8.

<sup>2</sup> PSTAT 120A is offered each quarter. ECE 139 is offered only in the spring quarter and is better suited for future upper division electives for the Computer Engineering major.

<sup>3</sup> ECE 153B is the prerequisite to ECE 189A.

<sup>4</sup> CMPSC 156 is the prerequisite for CMPSC 189A.

<sup>5</sup> ENGR 101 may be taken any quarter of the senior year.

<sup>6</sup> Students must complete at least 12 units per quarter. Students must complete at least 191 units to graduate. See an advisor for more information.

## COMPUTER SCIENCE 2022-23

Units

| <b>PREPARATION FOR THE MAJOR</b> | <b>57</b> |
|----------------------------------|-----------|
| CMPSC 16 .....                   | 4         |
| CMPSC 24 .....                   | 4         |
| CMPSC 32 .....                   | 4         |
| CMPSC 40 .....                   | 5         |
| CMPSC 64 .....                   | 4         |
| MATH 3A-B, 4A-B, 6A .....        | 20        |
| PSTAT 120A .....                 | 4         |
| PHYS 1, 2, 3, 3L .....           | 12        |

| <b>UPPER DIVISION MAJOR</b>   | <b>71</b> |
|-------------------------------|-----------|
| CMPSC 111 or 140 .....        | 4         |
| CMPSC 130A-B .....            | 8         |
| CMPSC 138 .....               | 4         |
| CMPSC 148 or 156 or 172 ..... | 4         |
| CMPSC 154 .....               | 4         |
| CMPSC 160 or 162 .....        | 4         |
| CMPSC 170 .....               | 4         |
| ENGR 101 .....                | 3         |
| PSTAT 120B .....              | 4         |
| Major Field Electives .....   | 32        |

Eight courses selected from the following list (at least 8 units must be CMPSC courses).

*Prior approval of the student's major field electives must be obtained from the faculty advisor.*

|                        |                         |              |
|------------------------|-------------------------|--------------|
| CMPSC 111 <sup>1</sup> | CMPSC 177               | ECE 152A     |
| CMPSC 140 <sup>1</sup> | CMPSC 178               | ECE 153B     |
| CMPSC 148 <sup>2</sup> | CMPSC 180               | ECE 160      |
| CMPSC/ECE 153A         | CMPSC/ECE 181           | ECE 178      |
| CMPSC 156 <sup>2</sup> | CMPSC 184               | MATH 108A-B  |
| CMPSC 160 <sup>3</sup> | CMPSC 185               | MATH 119A-B  |
| CMPSC 162 <sup>3</sup> | CMPSC 189 A-B           | MATH 124A-B  |
| CMPSC 165A-B           | CMPSC 190 AA-ZZ         | PSTAT 122    |
| CMPSC 171/ECE 151      | CMPSC 192 <sup>4</sup>  | PSTAT 130    |
| CMPSC 172 <sup>2</sup> | CMPSC 196 <sup>4</sup>  | PSTAT 160A-B |
| CMPSC 174A-B           | CMPSC 196B <sup>5</sup> |              |
| CMPSC 176A-B-C         | ECE 130A-B-C            |              |

<sup>1</sup> CMPSC 111 or 140 can be used as an elective if not taken as a major course.

<sup>2</sup> CMPSC 148 or 156 or 172 can be used as an elective if not taken as a major course.

<sup>3</sup> CMPSC 160 or 162 can be used as an elective if not taken as a major course.

<sup>4</sup> Four units maximum from CMPSC 192 and 196 combined; only for students with GPA of 3.0 or higher.

<sup>5</sup> Only for students who have met the requirements. Please see department advisor for more information.

Major Field Electives taken:

**SCIENCE COURSES**

Science Electives (see Dept. for list) ..... 8

Science Electives taken:

To satisfy major requirements, courses taken inside or outside the Department of Computer Science, must be taken for a letter grade.

**UNIVERSITY REQUIREMENTS**

UC Entry Level Writing Requirement: English Composition  
Must be fulfilled within three quarters of matriculation

<sup>1</sup> Consult Computer Science academic advisor for placement information.

<sup>2</sup> Or you may take CMPSC 162 to satisfy this requirement.

<sup>3</sup> Or you may take CMPSC 140 in Winter Quarter to satisfy this requirement.

<sup>4</sup> ENGR 101 may be taken any quarter of senior year.

## ELECTRICAL ENGINEERING 2022-23

Units

**PREPARATION FOR THE MAJOR**

|   |     |
|---|-----|
| CHEM 1A, 1AL or 2A, 2AC or ECE 6 . . . . .    | 5/4 |
| CMPSC 9 or CMPSC 16 . . . . .                 | 4   |
| ECE 3 . . . . .                               | 4   |
| ECE 5 . . . . .                               | 4   |
| ECE 10A, 10AL, 10B, 10BL, 10C, 10CL . . . . . | 15  |
| ECE 15A . . . . .                             | 4   |
| MATH 2A-B or 3A-B, 4A-B, 6A-B . . . . .       | 24  |
| PHYS 1, 2, 3, 3L, 4, 4L . . . . .             | 16  |
| PHYS 5, 5L or ECE 130B . . . . .              | 4   |
| ECE 130A . . . . .                            | 4   |
| ECE 139 . . . . .                             | 4   |

**UPPER DIVISION MAJOR****60**

|   |    |
|---|----|
| ECE 134 . . . . .   | 4  |
| ECE 152A . . . . .  | 4  |
| ECE 153A or 153B* . . . . .   | 4  |
| ECE 188A-B-C . . . . .  | 9  |
| ENGR 101 . . . . .  | 3  |
| Departmental electives selected from<br>the following list: . . . . . | 36 |

\*If both ECE 153A and ECE 153B are taken, one may be used as a departmental elective and the other will be used as a required course.

Approval of the student's departmental electives must be obtained from the student's faculty adviser. The departmental electives must include an approved depth sequence corresponding to the students' chosen track, or another depth sequence of at least 4 courses that is approved by the students' faculty advisor. See the ECE Department Student Office for the list of courses in the different areas of specialization.

Approved Departmental Electives:

|              |              |  |
|--------------|--------------|--|
| ECE 120A-B   | ECE 146A-B   | ECE 181                                  |
| ECE 122A-B   | ECE 147A-B-C | ECE 183                                  |
| ECE 123      | ECE 148      | ECE 192 or 196 (4 units<br>combined max) |
| ECE 125      | ECE 149      | ECE 194 AA-ZZ<br>(excluding ECE 194R)    |
| ECE 130C     | ECE 153A-B*  | MATRL 100A, C                            |
| ECE 132      | ECE 154A-B   | MATRL 100B or MATRL<br>101               |
| ECE 133      | ECE 157A-B   | MATRL 162A-B                             |
| ECE 135      | ECE 158      | TMP 120, 122 (1 course<br>max)           |
| ECE 137A-B   | ECE 160      |  |
| ECE 141A-B   | ECE 162A-B-C |  |
| ECE 142      | ECE 178      |  |
| ECE 144      | ECE 179D, P  |  |
| ECE 145A-B-C | ECE 180      |  |

Departmental Electives taken:

---

---

---

---

---

To satisfy major requirements, courses taken inside or outside the Department of Electrical and Computer Engineering, must be taken for a letter grade.

**UNIVERSITY REQUIREMENTS**

UC Entry Level Writing Requirement: English Composition  
Must be fulfilled within three quarters of matriculation

American History and Institutions – (one 4-unit course,  
may be counted as G.E. if selected from approved list)

**GENERAL EDUCATION****General Subject Areas**

Area A: English Reading & Comprehension – (2 courses  
required)

**A-1:** \_\_\_\_\_ **A-2:** \_\_\_\_\_

Area D: Social Science  
(2 courses minimum)

Area E: Culture and Thought  
(2 courses minimum)

Area F: The Arts  
(1 course minimum)

Area G: Literature  
(1 course minimum)

**Special Subject Areas**

Ethnicity (1 course): \_\_\_\_\_

European Traditions  
or World Cultures (1 course): \_\_\_\_\_

Writing (4 courses required):

---

---

**NON-MAJOR ELECTIVES**

Free Electives taken:

---

<sup>1</sup>ME W167 online version of ME 167.

<sup>2</sup>Four units maximum from ME 197 and ME 199 combined

To satisfy major requirements, courses taken inside or outside the Department of Mechanical Engineering, must be taken for a letter grade.

### UNIVERSITY REQUIREMENTS

UC Entry Level Writing Requirement: English Composition  
Must be fulfilled within three quarters of matriculation

Satisfied by: \_\_\_\_\_

American History and Institutions – (one 4-unit course, may be counted as G.E. if selected from approved list)

### GENERAL EDUCATION

#### General Subject Areas

Area A: English Reading & Comprehension – (2 courses required)

**A-1:** \_\_\_\_\_ **A-2:** \_\_\_\_\_

Area D: Social Science  
(2 courses minimum)

Area E: Culture and Thought  
(2 courses minimum)

Area F: The Arts  
(1 course minimum)

Area G: Literature  
(1 course minimum)

#### Special Subject Areas

Ethnicity (1 course): \_\_\_\_\_

European Traditions  
**or** World Cultures (1 course): \_\_\_\_\_

Writing (4 courses required): \_\_\_\_\_

### NON-MAJOR ELECTIVES

Free Electives taken:

**TOTAL UNITS REQUIRED FOR GRADUATION.....180**

## MECHANICAL ENGINEERING 2022-23

This grid is intended to serve as a guide and should be adjusted for individual circumstances in consultation with academic advisors.  
Course availability subject to change. Changes will be announced by the department.

<sup>1</sup> ME 12S is offered every Fall, Winter, and Spring quarter. The ME 12S requirement must be finished before the start of the third year.

<sup>2</sup> If applying to the BS/MS Materials program, third year students must take the MATRL 100A in Fall, MATRL 100B in Winter, and MATRL 100C in Spring.

<sup>3</sup> Course availability may vary. If using ME 154, ME 157, or ME 167 to satisfy requirement, students may not count the course as an Engineering Elective. If either of the other courses are also taken, those additional courses will count as an engineering elective.

<sup>^</sup> Students may only count one course toward the major. (MATRL 101 or MATRL 100C)

## Additional Resources and Information

Gaucha On-Line Data (GOLD) – grades, class registration, progress checks—<https://my.sa.ucsb.edu/gold>

UMAIL – campus email for official notifications—<http://www.umail.ucsb.edu>

Schedule of Classes information – quarterly calendar and information—<http://www.registrar.ucsb.edu>

General Catalog for UCSB – academic requirements for all campus majors—<http://my.sa.ucsb.edu/Catalog/>

Summer Sessions – Summer programs and course offerings—<http://www.summer.ucsb.edu>

Tutoring – course-specific tutoring and academic skills development—<http://www.clas.ucsb.edu>

Education Abroad Program – EAP options for engineering students—email: [eap@engineering.ucsb.edu](mailto:eap@engineering.ucsb.edu)

College Honors Program – program information and opportunities—email: [honors@engineering.ucsb.edu](mailto:honors@engineering.ucsb.edu)

## Advising Staff

**College Advisors:** general education requirements, academic standing, final degree clearance

**Departmental Advisors:** course selection, class enrollment, change of major, academic requirements

## Academic Integrity

The UCSB Student Conduct Code exists to support the highest standards of social and academic behavior and ensure an environment conducive to student learning. It is expected that students attending the UCSB understand and subscribe to the ideal of academic integrity, and are willing to bear individual responsibility for their work. Any submission that fulfills an academic requirement must represent a student's original work. Any act of academic dishonesty will subject a person to University disciplinary action.

Student Conduct Code and Student Due Process: <http://www.sa.ucsb.edu/regulations/student-conduct-code/student-conduct-code> (B. Student Rights: Procedural Due Process).

Instructor Responsibilities and Procedures: <https://senate.ucsb.edu/bylaws-and-regulations/> (Section 10, Reg. 90)

Academic dishonesty includes cheating, plagiarism, unauthorized collaboration, furnishing false information, and misuse of course materials. Definitions and misconduct are posted at <http://studentconduct.sa.ucsb.edu/academic-integrity>.

**A specific note about student collaboration:** Collaboration on homework assignments (i.e., problem sets), especially in light of the recognized pedagogical benefit of group study, is dictated by standards that can and do vary widely from course to course and instructor to instructor. The use of old solution sets and published solution guides presents a similar situation. Because homework assignments serve two functions – helping students learn the material and helping instructors evaluate academic performance – it is usually not obvious how much collaboration or assistance from commonly-available solutions, if any, the instructor expects. It is therefore imperative that students and instructors play an active role in communicating expectations about the nature and extent of collaboration or assistance from materials that is permissible or encouraged.
