

**TO THE DEAN OF THE COLLEGE OF:**

Letters & Science       Creative Studies       Engineering

The above college has established that foreign students on a non-immigrant visa who do not intend to remain permanently in the United States may petition for a waiver of the American History and Institutions Requirement. This waiver will be valid only as long as the student remains in a non-immigrant status. The student whose signature appears below made a statement of compliance with the condition of this waiver, and has been found to be currently on a non-immigrant visa type. It is therefore, recommended by this office that this requirement be waived as long as the student remains at UC Santa Barbara in a non-immigrant status.
