UCSB CHEMICAL SCIENCES & ENGINEERING

UCSB CHEMISTRY AND  
BIOCHEMISTRY CAREER DAY  
THURSDAY, SEPTEMBER 24

This symposium, hosted by the Chemistry Professional Development (ChemPD) group, is designed to inspire the next generation of chemistry professionals. It serves as an exceptional opportunity to connect with chemistry students and faculty at UC Santa Barbara. Our program agenda will include:

- Panel discussion by industry representatives
- Company showcase
- Small group student-to-industry networking session

The goals of the Chemical Sciences and Engineering Career Fest are for the students to gain first-hand insight into industry, as well as strengthen the network between industry and our UCSB students.

UCSB CLOROX-AMGEN  
GRADUATE STUDENT  
SYMPOSIUM

FRIDAY, SEPTEMBER 25

The UC Santa Barbara Chemical Engineering Graduate Student Symposium is a forum for Chemical Engineering Ph.D. students to present their original research. The event is designed to provide a networking opportunity between industrial attendees and members of the department with two main goals:

- Highlight ongoing work in the department to stimulate industrial collaborations
- Facilitate interactions with students seeking future employment opportunities

The symposium consists of oral presentations given by senior students, as well as a poster session showcasing work throughout the department. Attendees will receive the abstracts and CVs of presenting students to enable future connections.

# CAREER FEST 2020

## SEPTEMBER 24 & 25
