Major College Major College

Estimated total units at the time of graduation: _____ . Units now completed: _____

DUAL COLLEGE ENROLLMENT: Students who plan to pursue majors in both the College of Engineering and the College of Letters and Science must complete 162 Letters and Science units including 60 Upper Division Letters and Science units.

GENERAL EDUCATION: You must fulfill all general education requirements for both colleges, although you may overlap where appropriate. You must complete Writing 2 or 2E and 50 or 50E in order to meet the requirements for both colleges.

AMERICAN HISTORY AND INSTITUTIONS - All students must complete one American History and Institutions course from the approved list in the General Catalog.

I understand that I may not graduate with one major and later return to complete the other; requirements for both majors must be completed by the end of the quarter for which degree candidacy has been declared. Further, to graduate with one major alone, I must formally drop the one that is not yet complete, and I will not later be readmitted to complete a second degree in the major I have dropped. I understand that no more than 8 units may be applied simultaneously toward upper division requirements for both majors, and that substitution of any course not listed on the major requirement sheet must be approved by the major department and the Dean of the corresponding College.

Waivers and Substitutions - Please list any waivers or substitutions which you are requesting for either major.

Note: Final action on your request will be delayed if any degree requirement is left unsatisfied by your proposal.

TENTATIVE SCHEDULE FOR FUTURE QUARTERS

Please list all courses which you will need to complete for your proposed dual degree program. Include all general education requirements as well as department requirements for both colleges. It is suggested that you plan to complete one of your majors in four years and complete the remainder of the second major after the first is completed. This will insure that you will still be able to graduate in four years if you should change your mind about a second major.
